PRIVACY POLICY FOR DATA INSIGHTS

Welcome to Data Insights! This privacy policy outlines how I handle the personal projects and code snippets presented on my website and my approach to user privacy.

1. Information Collection

Data Insights uses cookies to enhance the user experience and provide analytical insights into website usage. Cookies are small text files stored on a user's device that may track certain information about their browsing behaviour on my website. However, it's important to note that Data Insights does not collect any personal information from visitors. The cookies used are for analytical and statistical purposes only and do not gather personally identifiable information.

2. Use of Personal Projects and Code Snippets

The personal projects and code snippets showcased on Data Insights are presented for informational and educational purposes. While these projects may include code created in R Studio, I do not collect or store any personal information related to my website visitors' usage of these projects or code snippets.

3. Third-Party Services

Data Insights does not utilize third-party services, such as Google Analytics, to analyze website traffic and usage patterns. As a result, there are no third-party cookies or tracking mechanisms used on the website.

4. Data Security

I am committed to maintaining the security and privacy of my visitors. Any information collected through the use of cookies is used for analytical and statistical purposes only and is not personally identifiable.

5. Cookie Management

Visitors to Data Insights have the option to manage their cookie preferences. Most web browsers allow users to control how cookies are handled, including the ability to block or delete cookies. By changing the browser settings, users can manage their preferences regarding the use of cookies on my website.

6. Contact Information

If you have any questions or concerns regarding my privacy policy or the content presented on Data Insights, please feel free to contact me at pythiaschidas2@gmail.com

I am committed to maintaining the privacy and security of my visitors and ensuring a transparent and informative experience on Data Insights.
